MISSION

Our main activity is the manufacture, assembly and/or repair of metallic structures in the Naval and Industrial sectors, like:

- Manufacture, assembly and repair of metallic structures.
- Manufacture, assembly and repair of pipes.
- Welding work.
- Mechanical maintenance and repairs.
- Thermal treatments.
- Paint treatments.

And all this with a high level of quality in order to meet the specific needs of each customer.

VISION

Leadership of our services in the markets where we work based on the following points:

- Performance of our activity satisfying the needs of our customers with the highest level of integration and involvement,
- Innovation in our products and services, as well as in our management systems aimed at continuous improvement.
- People's involvement and sense of belonging to a common project which will allow their development, both professional and personal.
- Commitment with total quality, competitiveness, internal efficiency, and the proactive assumption of the philosophy of continuous improvement in all the areas of the activity.

VALUES

People are the most valuable asset of VEIVER S.L., each member is helpful and important, we rely on their capabilities. We promote their acknowledgement and, as far as possible, their training and professional development, in order to obtain their motivation and satisfaction.

Fellowship, empathy and mutual respect favour a participative, pleasant work environment in which positive and constructive thinking, adaptation to changes, team work and self-critical attitude stand out, all of which allow us to accept mistakes and learn from them.
